

**RAYAT SHIKSHAN SANSTHA'S
ARTS, SCIENCE AND COMMERCE COLLEGE, MOKHADA, DIST.
PALGHAR
DEPARTMENT OF BOTANY**

BRIEF INFORMATION

The department of Botany has been started in the year 2013 with three units. The Botany provides a forum to the students for extra and co-curricular activities such as Plant identification programs, seminars, group discussions, excursion Tours. Presently departmental short-term course is ongoing on “fruit and vegetable processing”.

VISION, MISSION AND OBJECTIVES

VISION

- To create awareness among the students and tribals about the plant wealth and its conservation.

MISION

- To provide quality education in the subject of Botany for the tribal students
- To organize tree plantation program with the help of students and local people
- To spread awareness of Biodiversity Conservation by means of various media among the tribals
- To inculcate the value of plant wealth in tribals
- To arrange field visit of students to know the biodiversity of this area

OBJECTIVES:

- To understand the significance of fundamental principles and theories of botany to life, nature and society.
- To understand the knowledge of botany and use it for conservation.
- To keep understandable and complete experimental records.
- To communicate effectively through oral and written reports.
- To use and understand modern botany.
- To enrich the knowledge of biodiversity through field /nature visits.

OUR STAFF

Sr. No.	Name of the Teacher	Designation	Qualification	Experience
1.	Prof. S. E. Saindanshiv	Associate Professor and Head	M.Sc.	21
2.	Dr. A. N. Chandore	Assistant Professor	M.Sc., Ph.D.	09
3.	Mr. S. Y. Tayade	Assistant Professor	M.Sc., SET	01
4.	Dr. B. R. Ughade	Assistant Professor	M.Sc., Ph.D.	04

SHORT TERM COURSES OF THE DEPARTMENT (2021-2022)

1. Fruit and Vegetable Processing
2. Biodiversity and Conservation

EXTENSION ACTIVITIES (2021-2022)

1. "Tree plantation in college campus"

BEST PRACTICE (2021-2022)

1. Short term course on Fruit and Vegetable processing

INNOVATIVE PROJECT

1. Ethnobotanical study and Medicinal plants survey of Suryamal area

FUTURE PLAN

- To start the research center in the subject of Botany.
